

## Sage Pastel Partner V17.1.2

### History of Changes

#### Enhancements:

- #14828 Sage Pay Connect was implemented on Edit...Customers...Accounts and Edit...Suppliers...Accounts.
- #15045 The Reset Defaults and Settings process will only be allowed if there are no open batches.
- #15366 If a user encounters an error 2 when opening a company, Pastel will now try to rebuild the file when opening the company again.
- #15501 A check will now be done to see if your system is on the recommended version of Sage Connected Services.
- #15895 A new Help file is available and the Online help was also updated.
- #15988 & #16001 New icons were added to the Enter a Password screen and the Manage Companies screen.
- #16014 Sage Pay login details were added to Setup...Users / Passwords.

#### Defects:

- #14949 When you now print any report to screen, you can scroll down on the report before first scrolling to the right.
- #15043 User access rights were changed to be the same on the System Navigator and the menus for the Tax Type Report.
- #15088 The Read-only was removed when opening Pastel or opening a company to avoid some permission errors.
- #15420 When a user is processing cash books, the function buttons will now be disabled until the user moves off the line.
- #15780 A user was able to save a blank code on some of the Edit menu screens, which could not be deleted.
